

# Bringing Paradise to You . . .

*The Privacy Fantasy as seen in* **HouseBeautiful**

**“Initially, we didn’t know what we wanted but knew we needed a big change. Leland asked the right questions, understood where we were coming from and listened. He offered creative ideas that spoke to our specific needs, and worked within our budget. The process was fun and exciting. In the end, we got a garden beyond what we could ever imagine.”**

**– Mark & Holly Carmody  
Santa Barbara, CA**

**Leland Walmsley**  
– Principal

ASLA, Lic. # 4918, LEED AP  
GREEN ROOF & LIVING WALL SPECIALIST

*I can't imagine starting a project without everGREEN's participation.*

- Janis Clapoff, Managing Director  
Ojai Valley Inn, Spa & Golf Resort

*everGREEN helped my client in Ojai smooth out the headaches of a tired landscape with no curb appeal. After everGREEN's landscape staging, the ranch looked amazing and sold for well above the asking price.*

- Victor Plana, Agent Estates Director  
Coldwell Banker Montecito, CA

*We always appreciate working with everGREEN! They are thorough and consistently do a great job!*

- Geoff Crane, Giffin & Crane General Contractors  
Gen. Contractor, Lic. #611341, since 1986  
Santa Barbara, CA

*everGREEN is a leader in bringing amazingly beautiful and sensible landscape architecture to the Central Coast. Leland is committed to contributing sustainable solutions to tough landscaping situations. His plant knowledge is unsurpassed. He is a welcome partner on projects . . .*

- Jo O'Connell, Owner, Australian Native Plants Nursery Ventura, CA

***Let us bring your dream garden to life for YOU !***

---

### **Our Mission**

to seamlessly blend award-winning garden design, sustainable science, and environmental stewardship to the delight, and health of our clients and mother nature – **smoothly, on budget, on time.**

*“ . . . 300 sq. ft or 300 acres, every client and every garden deserves great design. Let's have fun together and co-create. I promise, you will love your private slice of paradise.”*

---

**Founder** of *everGREEN landscape architects*, **Leland Walmsley** was born into a family of professionally renowned designers practicing Architecture, Landscape Architecture, Construction, and City Planning in southern California since 1918. In 2003, *everGREEN* was launched and is rapidly proving a path for others to follow in both awe inspiring and **eco-conscious** garden design.

*“I love what I do; everyday I get to paint with plants and my canvas is the earth.”*

*A talented artist, illustrator, photographer, designer and landscape architect* in his own right, Leland continues his family's rich tradition of **award-winning and published designs**, captivating clients, and lovingly bringing paradise back to the planet, one gorgeous garden space at a time.

*“My family and I have always practiced ‘cutting edge’, ‘organic’, ‘environmentally responsible’, and ‘green’ design, while others are just now scrambling to catch up. Many of my early client's don't even realize their gardens are ‘eco-sensitive’, but are enjoying all the benefits – reduced installation and maintenance costs and a healthier environment to work, live and play in. The way nature intended – the best of all worlds - inspiring, magical, and sustainable.”*
